Hygiastika.—A hperdy and certain curse for onvisions, or any other complaints attendant upon early childhood during the period of teething, has been discovered, and is now being successfully administered in the form of a medicated necklace, to be worn next the skin by the patient. An ominent German physician discovered the virtues of the valuable medicines of which the beads of the necklace are made, and prescribed the mode of application. The notice of the public is not, therefore, called to a quack medicine, but to a medicament recommended by one of the mode of application of the faculty, as peculiarly powerful in acting through the pores of the skin directly upon the diseased or excited nerves, affording, generally, instant, and always permanent relief, and effecting a permanent cure. Patients who, at twenty-four hours trial of the medicated necklace, according to prescription, find no relief, may, at the close of that period, by immediately returning the same, receive back their money.

SCHUFFNER & MULDENER, 54 Beaver st.

TERMEONY.—I do nereby certify that the composition of the medicated necklace offered by Schuffner & Muldener, is of such a nature as to unfailingly produce the most satisfactory of white.

THE MARRIED WOMAN'S PRIVATE MEDICAL COMpanion—By Dr. A. M. Mauriceau, Professor of Diseases of Women. Twentieth edition, 16me, pp. 253. Price, \$1. Years of suffering, of physical and mental anguise, to many an affectionate wife, and pecuniary difficulties to the husband, might have been spared by a timely possession of this work. It is intended especially for the married, or those contemplating marriage, as it discloses important secrets which should be known to them particularly.

the husband, might have been spared by a timely possession of this work. It is intended especially for the married, or those contemplating marriage, as it discloses important secrets which should be known to them particularly.

Here, also, every female—the wife, the mother—the one either budding into womanhood, or the other in the decline of years, in whom nature contemplates an important change, can discover the causes, symptoms, and the most efficient remedies, and the most certain mode of cure, in every complaint to which her sex is subject. (Extract of a letter from a gentleman in Bayton, Ohio.)

Dr. A. M. MAURICRAU, 129 Liberty street,
My Dear Sir—My wife has been perceptibly sinking for some three years or more, in consequence of her great anguish and suffering some months before and during? or confinement—every successive one more and more debibitating and prostrating her, putting her life in imminent danger, and which was, on the last occasion, despaired of. I supposed this state of things was inevitable, and resigned myself to meet the worst. At this time, (now about two months,) I heard your book highly spoken of, es containing some matters reaching my case. On its recapit and perusal, I cannot express to you the relief it afforded my distressed mind, and the joy its pages imparted to my wife, on learning that the great discovery of M. M. Dasomeaux provided a remedy. It opened a prospect to me which I little conceived was possible. But for this, ere another year would have passed over my head, in all human probability my wife would have been in her grave, and my children motherless.

It is, of course, impracticable to convey more fully the serious subjects treated of, as they are of a nature strictly intended for the married, or those contemplating marriage. For sale at 222 Broadway, No. 2 Astor House, and at the publishing office, 129 Liberty street, New York; Little & Co., Albany; Joseph Tucker, Mobile. Also, T. F. Peterson, No. 96 Chesnut street, Philadelphia. On the receipt of \$1, a copy will be t

grocery store in the city.

TEWKSBURY'S METALIC LIFE BOAT.—THE PROpictors respectfully invite the attention of steamboat and ship owners to the above boats, one of which may be examined at the Sectional Dry Dock, between Pike and Rutgers streets, East river. These lifeboats cannot be swamped. They may be lunched or thrown into the water in any position, whatever, and will always be right side up, as one side is the exact counterpart of the other. The hull may be divided into any number of water-tight compartments, so that if a hole should be stove in any one part, she will loose but a small portion of her buoyancy. These are believed to be the most reliable lifeboats in any emergency requiring the abandonment of a skip at sea by passengers and crew, or in case of fire or other cause of sudden destruction to a vessel employed in inland navigation. A lifeboat of this kind, 18 feet long, 6 feet beam, and 3 feet deep, will carry from thirty to thirty-five persons on board, and sixty or seventy more can support themselves by holding on to the life rods. Further information can be obtained from Phiness Burgess, Fast Boston, Masse, general agent; Daniel Dodge, Lovejoy's Hotel, N. Y.: H. V. Mason, 254 South street, and of J. S. BUNCE & CO. manufacturers, 26 Washington and 17 West streets, N. Y.
